

Storefront

Access the Storefront

1. Log in with a Site Manager account.
2. Select **Store Admin** from your home page.

3. The storefront requires its own login. Your login information is generally the same as your Site Manager account until you change either password. After you log in, you will see the Store Administration dashboard.

Manage Storefront Accounts

New administrator accounts must be created directly within the storefront.

1. Log into the storefront (see [Access the Storefront](#)).
2. Select **Settings** from the main menu.
3. Select **05 Administrators**.

From here you can add or modify an administrator account. You can configure a Comersus administrator account to only be an administrator for the entire storefront or for one store.

If you would like a store administrator who is not a Site Manager, a direct link to the store can be provided, bypassing the learning management system. For example, you may have an employee within the accounting department that is not using the learning management system but may need direct access to financial information.

Manage Storefront Items

The storefront is automatically populated with product information within the system making the posting of new products to the storefront quick and easy. You can post anything in the product library to your storefront. Extensions and bundles of products may be placed on the storefront for purchase as well.

Add Products to Storefront

1. Select a product to open it.
2. Select **Storefront** from the properties menu to open the Manage Storefront page. If you cannot see the menu, show the **Tool Panel** .

3. Select **Create** to open the Add Store Item page.

4. Fill out the Add Store Item form. You must place a store item into at least one category and make it active for it to be seen on the storefront.

Manage Storefront

You are viewing: [Product Library](#) > [!WHIMS TE2](#) > [Manage Storefront](#) > [Add Store Item](#)

Add Store Item

or [Cancel](#)

5. Select **Add Store Item**. The item will be added to the storefront and you will be returned to the Manage Storefront page where you can review the posted item.

Sell Multiple Versions of the Same Product

You can create another copy to sell or create an exception for the same product.

Add Bundles to Storefront

1. Log in with a Site Manager account.
2. Open the Bundles management page.
3. Select the **Storefront** button from [detailed view](#) or the **Edit Storefront** icon from [list view](#).

Name	Description	Type	Status	Created	Edited
Communication Skills		Product Enrollment	active	2/7/2011 1:05:10 PM Maxwell Frattolin	10/20/2011 10:13:18 AM Sierra Trees-Turner

4. Select **Add Storefront Item**.
5. From here the process is the same as it is for adding products to the store (see [Add Products to Storefront](#)).

Add Products to Existing Bundles

- When you add a new product to an existing bundle, it is automatically updated to the storefront items.
- If you add products to the bundle after an individual purchased it, the individual is not automatically given access to the newly added products.

Add Exceptions to Storefront

Site managers may choose to publish an exception to the storefront so that a customer can purchase extended access to a product that has expired for them. You can even set a limit as to how many times that exception may be purchased by each customer by using the Limit field. The process for adding exceptions to the store is exactly the same as adding products. Simply select “product exception” from the drop-down menu under the item type. Individuals must be on the enrolment list to purchase a product exception, i.e., they must have first purchased the product itself or have been registered manually within the system.

The process for adding exceptions to the store is exactly the same as adding products (see [Add Products to Storefront](#)). Individuals must be on the enrolment list to purchase a product exception, i.e., they must have first purchased the product itself or have been registered manually within the system.

Email Notifications for Exceptions

Email notification may be enabled to remind enroled individuals about an expiring product with a link to purchase an exception. Provided that the exception is available on the storefront to be purchased, the product expiration notice will include a link to purchase the related exception. This is done automatically based on the conditions below.

- An extension has to have been created in the storefront.
- The preset text [[Extension List]] is added to the body of the email.

The link is usually just a standard link to automatically add the product into the cart. When the user clicks the link, they are brought to the storefront with the extension added to their cart.

Product Exception Tips

1. Exceptions are only applicable for storefront products that have a duration or expiry.
2. The product does not need to be on the storefront to publish an exception for it on

the storefront.

3. Extra time will be added to the original expiry, so only enter the duration days for the exception itself, not a total.

Edit Storefront Items

1. Select the product name to open it.
2. Select **Storefront** under the properties menu to open the Manage Storefront page.
3. Select the **Edit Icon** next to the item.

Manage Storefront: WHMIS

You are viewing: Library > Products > WHMIS > Manage Storefront: WHMIS

Create

- ▶ WHMIS, Retail Price \$100.00 [Modify](#) [Delete](#)

Manage Storefront Descriptions

Descriptions may be created by Site Managers, Campus Admins, and Publishers depending on system configuration.

You may add descriptions and images for any product in the system. The description display information about your product to individuals viewing your storefront.

The image below shows an example of a course description.

Transportation of Dangerous Goods

This online course teaches you what you need to know about the transportation of dangerous goods (TDG) in Canada. You will learn about related legislation and the hazard classification system. You will also learn how accidents can happen while transporting dangerous goods and what you should do if there is an accidental release.

There are nine classes of dangerous goods and at the end of this course you will be qualified to handle all of them except Classes 1, 6.2, and 7, which require additional training.

Keeping Your Storefront Neat & Tidy

Consider using short, simple descriptions to allow you to showcase more products on one page without requiring your users to do a lot of scrolling to view your offerings. It is best practice to use images either for all of your products or for none of your products so that store pages look uniform.

When including images, it is usually preferable to make them all a standard size. Thumbnails used on the category pages are automatically resized to 100 x 100 pixels. Larger images that show up after a customer clicks an item are only standard if you have uploaded them all as the same size. 300 x 300 pixels is a good starting point.

Product Descriptions

1. Log in with a Site Manager account.
2. Select a product to open it.
3. Ensure that the item is already posted to the storefront (see [Add Products to Storefront](#)).
4. Select **Storefront** under the properties menu to open the Manage Storefront page.

Best Practises

Product descriptions that are updated directly in the storefront are not reflected within the system. Therefore, it is typically best practice to create and edit the description text within the learning management system itself rather than from the storefront.

Bundle Descriptions

1. Log in with a Site manager account.
2. Navigate to the Manage Bundles page ((see ///Bundles).
3. Select the name of the bundle or **Edit** to open it.
4. Enter a short description into the **Bundle Details**.

Edit Details [close](#) or Esc Key

Edit Bundle Details

Name:

Description:

* You have 255 characters left

or [Cancel](#)

5. **Save** when finished.

Bundle Description Limits

Descriptions for bundled courses are more limited than for the individual products in the catalogue. Bundle descriptions are limited to 255 characters.

Manage Storefront Categories

You may find that you wish to add a category or change the name of a category on your storefront. Your storefront items must belong to one or more categories so your customers can easily find what they are looking for.

Category Tips

- Categories must be active to be seen on the storefront. Any products within inactive categories will not be seen.
- The storefront will not let you change the name of a category unless there are no products within it. Therefore, you will need to temporarily remove the products within the category or contact a support to change the name for you.

Add a Storefront Category

1. [Access the Storefront](#) .
2. Select **Storefront** from the main menu.
3. Select **01 Products** to open the Product Menu.

Store Administration

You are viewing: Store Administration

Review Storefront Orders

Your payment gateway (e.g. PayPal or Moneris) will have order information. You may occasionally want to match orders up against a customer's inquiry by comparing against the storefront.

1. Log into the storefront (see [Access the Storefront](#)).
2. Select **Sales** from the main menu.
3. Select **List All** to view order numbers, date of transactions, customer name, total purchase amount, and order status (canceled, pending or, paid).

The screenshot shows the storefront interface. At the top, there is a navigation bar with links: settings, storefront, sales, utilities, and logout. Below this is a search bar labeled 'Enter SKU' and a 'Search' button. The main menu is visible, with 'Sales' highlighted in a red box. A red arrow points from the 'Sales' menu item to the 'List All' link in the 'Sales Menu' section. The 'List All' link is highlighted in blue. Below the 'List All' link, there is a table titled 'List orders' showing a list of orders with columns: Order, Date, Customer, Total, Status, and Actions.

Order	Date	Customer	Total	Status	Actions
20076	10/12/2010	Jennifer Cameron	\$55.00	Pending	
20075	10/08/2010	Jason Bruce	\$79.00	Pending	
20074	10/08/2010	Jason Bruce	\$55.00	Pending	
20073	10/08/2010	Jason Bruce	\$55.00	Pending	
20072	10/08/2010	Jason Bruce	\$79.00	Pending	
20071	10/08/2010	Jason Bruce	\$154.00	Pending	
20070	10/07/2010	travis mcgrath	\$79.00	Pending	
20069	07/27/2010	Jamie Wheatley	\$79.00	Cancelled	
20068	07/27/2010	Jamie Wheatley	\$79.00	Cancelled	
20069	07/27/2010	Jamie Wheatley	\$79.00	Cancelled	
20068	07/27/2010	Jamie Wheatley	\$79.00	Cancelled	

4. Select any **Order** number to review details about the transaction.

View order

Procedure: 1. Enter Transaction Results and mark order as paid 2. Enter Tracking Information and mark the order as delivered. Then you can RollBack, ChargeBack or Refund.

Storefront Discounts

Site Managers can create a variety of discounts including dollar amount, percentage off, and discounts based on a previous purchase. Creating a discount code allows you to implement a variety of scenarios, such as coupons, gift certificates, corporate discounts, etc. The storefront also supports bulk discounts and automatic discounts based on a user's prior purchase. A few of the more popular discount types are discussed in more detail in this manual. You can also visit the Discounts and Promotions chapter of the Comersus manual (select Store Help from the storefront).

1. Log into the storefront (see [Access the Storefront](#)).
2. Select **Storefront** from the main menu.
3. Select **03 Discounts**.

Add Discount

Form Fields

Explanation

Discount

customers using the search tool.

Active

This check box will make this category active and visible on your storefront.

Discount

Parameters

The following parameters limit the applicability of the discount. You do not need to specify any of these parameters; they are optional.

- Quantity You can limit the validity of the discount to orders that fall within a certain quantity range (e.g. between 5 and 10 copies, etc.)
- Weight Some clients sell physical products which include a weight. The weight can be used to attach shipping fees to an order on checkout.
- Total Here the parameter is the total order amount. Typically, you would set a
Price minimum dollar amount for the purchase and any order under the minimum dollar amount would not receive the discount.

Discount Code

Enter the code that your customers must use to obtain the discount. The code is entered by customers on the checkout page.

Private

This check box allows admins to set certain discount codes as private within the system. A private code means that it will not appear on credit card order receipts.

Add Discount

Form Fields	Explanation
-------------	-------------

Modify discount

Description	<input type="text" value="Discount for any purchase"/>
Fixed price to discount	\$ <input type="text" value="5"/>
Percentage to discount	% <input type="text" value="0"/>

Define Storefront Taxes

Each of our eCommerce clients will need to set up their taxes based on their business practices.

Sencia does not set up taxes for our clients since a client's own accounts department knows best how to properly set taxes up. What follows are some directions for common set up situations, but you will need to contact your company's accounting department to determine what taxes you need to have set up to comply with your tax laws.

1. Log into the storefront (see [Access the Storefront](#)).
2. Select **Settings**.
3. Select **07 Taxes** from the Settings menu.

4. Select **Tax per Place** or **Tax per Product** from the taxes menu.

5. Complete the form. See the table below for an explanation of the fields on this form.

You must set up a separate tax form for each country, province/state and customer type needed by your storefront. See the table below for an explanation of the fields on this form.

Add Tax Per Place

Tax	% <input type="text" value="5.00"/> (use - to discount)
VAT	Yes <input type="checkbox"/>
Zip Code	<input type="text"/>
Zip Equal	Yes <input type="checkbox"/>
State Code	<input type="text" value="State Code"/>
State Code Equal	Yes <input type="checkbox"/>
Country	<input type="text" value="Country"/>
Country Code Equal	Yes <input type="checkbox"/>
Customer Type	<input type="text" value="WholeSale"/>
<input type="button" value="Save"/>	

Add Tax Per Product

6. **Save.**

Tax Form

Fields	Explanation
--------	-------------

Product	The system automatically populates this field for the product that you have selected to tax.
---------	--

Tax	Enter the percentage of the purchase to tax. 15.00 would be 15%. Make sure to check the VAT checkbox to activate it.
-----	--

Zip Code	Define the geographic limitation of this tax by entering a zip code or postal code. Make sure to check the zip equal checkbox to activate it. Take care if you have already set up a zip code tax in another rule.
----------	--

State Code	To apply a state-wide/province-tax, use the drop-down to select the state/province. Make sure to check the state code equal checkbox to activate it. Take care if you have already set up a state tax in another rule.
------------	--

Country	To apply a country-wide tax, use the drop-down to select the country. Make sure to check the country code equal checkbox to activate it. Take care if you have already set up a country tax in another rule.
---------	--

Customer Type	Many of our clients have more than one customer type (e.g., members and non-members). Use the drop-down menu only if you have more than one type. You will need to set up a separate tax for each, even if they are taxed exactly the same way.
---------------	---

Taxes are Based on Customer Location

The storefront applies taxes based on the customer's location, not based on where the products are being offered from (i.e. the physical location of your campus).

Combining Taxes

The various tax setup rules you create up will combine with each other and affect customers who meet the criteria of multiple tax rules. What follows are some examples of tax setups and their effects on customers.

Blanket Tax

The example below shows that a 5% is applied, no matter where your wholesale member customer lives. There is no regional tax rule setup for the zip code, state or country.

Multiple Regional Tax Rules

The example below shows all of the rules set up for Non-Member customers.

- A Non-Member customer living anywhere outside of Canada would pay 5% tax (line 3).
- A Non-Member customer living within Canada (country code CA) would pay 5% tax and an additional 5% for living anywhere (line 1).
- A non-member customer living in Ontario would pay 5% tax for being in Canada, an additional 8% for living in Ontario (state code ON) and an additional 5% for living anywhere (line 2).

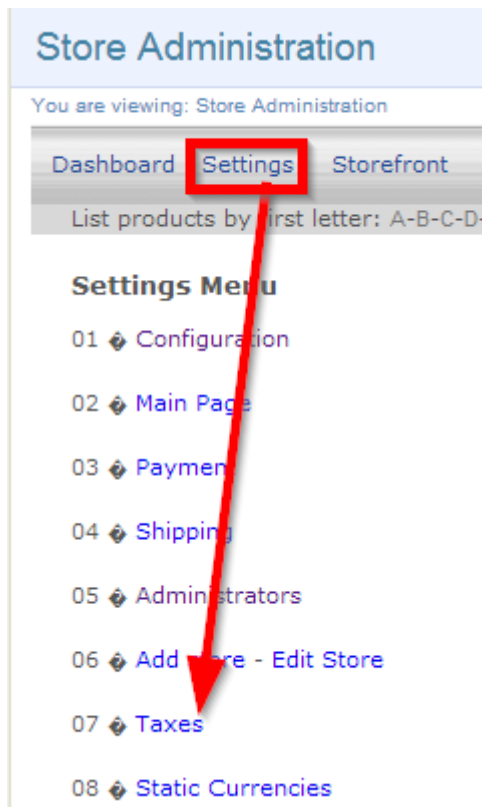

Tax per place

Tax	Zip	State	Country	Customer Type	Actions
5.00	All	All	CA	Non Member	Modify Delete
8.00	All	ON	All	Non Member	Modify Delete
5.00	All	All	All	Non Member	Modify Delete

Edit or Delete Taxes

1. Log into the storefront (see [Access the Storefront](#)).
2. Select **Settings** from the main menu.
3. Select **07 Taxes** from the Settings menu.

4. Select **02 Modify Tax per Place** or **02 Modify Tax per Product**.

Tax per product

- 01 [Add Tax per product](#)
- 02 [Modify Tax per product](#)
- 03 [Previous menu](#)

Tax per place and customer type

- 01 [Add Tax per place](#)
- 02 [Modify Tax per place](#)
- 03 [Previous menu](#)

5. Next to the relevant tax, select **Modify** to make edits or **Delete** to remove the tax.

Tax per place

Tax	Zip	State	Country	Customer Type	Actions
5.00	All	All	CA	Non Member	Modify Delete
8.00	All	ON	All	Non Member	Modify Delete
5.00	All	All	All	Non Member	Modify Delete

6. **Save.**

Sales Terms and Conditions

Sales terms and conditions are setup when your system goes live, however, you may find that you want to make updates over time. Clients may want to involve their accounting department or legal departments. Sales terms and conditions are presented to your customers on their final receipt screen during checkout. They will get a screen listing their purchases, taxes, payment option and pricing that they must confirm. This confirmation also agrees them to the terms and conditions.

1. Log into the storefront (see [Access the Storefront](#)).
2. Select **Settings** from the main menu.
3. Select **10 General Conditions** from the Settings menu.

Store Administration

You are viewing: Store Administration

Settings Menu

- 01 Configuration
- 02 Main Page
- 03 Payment
- 04 Shipping
- 05 Administrators
- 06 Add store - Edit Store
- 07 Taxes
- 08 Static Currencies
- 09 States - Countries
- 10 General conditions

4. Use the [content editor](#) to create your terms and conditions. You can use a bit of HTML on this screen when creating the content if desired.

Modify General Conditions

The image shows a content editor interface. At the top, there is a toolbar with various icons for editing text and formatting. Below the toolbar, the text 'No conditions defined yet.' is displayed. At the bottom of the editor, there is a text field labeled 'Path: p' and two buttons: 'Modify' and 'Cancel'.

5. **Save or Modify.**

Comersus Reports

The Comersus storefront has several reports available. You can **filter** reports per date or per product depending on the report. Some reports will show charts that can be seen when using a modern web browser.

Report Errors

Some Comersus reports only get data from paid or delivered orders and that is why you can get an error message “not enough information to create reports.”

Excel Reports

The following reports can be run from the Comersus storefront itself and can be exported to Excel format.

1. Log into the storefront (see [Access the Storefront](#)).
2. Select **Utilities** from the main menu.
3. Select the name of a report from **04 Export to Excel**.

-
4. You can **filter** reports per date or per product depending on the report.

Products Report

This report generates a list of storefront products with their retail and wholesale prices and stock quantities. Access this report via the storefront Utilities menu: Utilities > 04 Export to Excel > Products.

Customers Report

This report generates a list of all of the accounts created via the storefront registration page with their first name, phone, email, and address. Access this report via the storefront Utilities menu: Utilities > 04 Export to Excel > Customers.

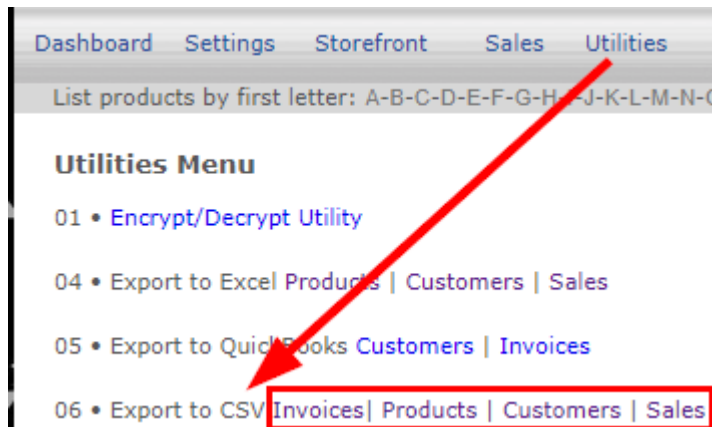

Sales Report

Access this report via the storefront Utilities menu: Utilities > 04 Export to Excel > Sales.

CSV Reports

The following reports can be run from the Comersus storefront itself and can be exported to Excel format.

1. Log into the storefront (see [Access the Storefront](#)).
2. Select **Utilities** from the main menu.
3. Select the name of a report from **06 Export to CSV**.

4. You can **filter** reports per date or per product depending on the report.

Invoices Report

This report generates an historical list of all purchases including contact information, location, prices paid, discount code used, and method of payment. Access this report via the storefront Utilities menu: Utilities > 06 Export to CSV > Invoices.

Products Report

This report is an ad hoc product report that lets you select which fields you want to report on. Access this report via the storefront Utilities menu: Utilities > 06 Export to CSV > Products.

Customers Report

This report generates a list of all of the accounts created via the storefront registration page with their first and last name, phone, email, address, and the company they indicated on their registration form. Access this report via the storefront Utilities menu: Utilities > 06 Export to CSV > Customers.

Sales Report

This report lists every product and the number of visits versus number of sales of each product.

Access this report via the storefront Utilities menu: Utilities > 06 Export to CSV > Sales.

Sales Menu Reports

The following reports can be run from the Comersus storefront itself. These reports are on screen only and do not offer an export option.

1. Log into the storefront (see [Access the Storefront](#)).
2. Select **Sales** from the main menu.
3. Select the name of a report from **03 Reports**.

Sales/Product Report

This report lists every product and the number of visits versus number of sales of each product. It can be filtered to show results from specific categories.

- Access this report via the storefront Sales menu: Sales > 03 Reports > Sales/product.
- A similar unfilterable exportable version of this report can be found under Utilities > 06 Export to CSV > Sales.

Orders/Month Report

This report lists the number of orders received for a selected year broken down by month. Access this

report via the storefront Sales menu: Sales > 03 Reports > Orders/month.

Totals/Month Report

This report lists the total sales income for a selected year broken down by month. Access this report via the storefront Sales menu: Sales > 03 Reports > Totals/month.

Profit/Product

This report lists the historical profit for each product as well and a combined Total Profit. It can be filtered to show results from specific categories. Access this report via the storefront Sales menu: Sales > 03 Reports > Profit/product.

Cancelled and Refunded Orders

This report shows the total number of orders cancelled and refunded for a selected year. A specific month can also be selected. Access this report via the storefront Sales menu: Sales > 03 Reports > Cancelled and refunded orders

How Important

This report shows sales information for a selected product in order to illustrate how that product is performing on your storefront. Access this report via the storefront Sales menu: Sales > 03 Reports > How important. The details include:

- Total sold
- Quantity sold
- Total Sold - Total Cost (Profit)
- Product stock
- Percentage of the total sold

-
- Percentage of the quantity sold
 - Percentage of the total sold-total cost (Revenue)
 - Percentage of the total stock at this moment

Dead Products

This report indicates which products have no sales, which products have no visits, and which products have neither sales nor visits. Products without visits do indicate the number of sales and products without sales do indicate the number of visits. Access this report via the storefront Sales menu: Sales > 03 Reports > Dead products.

Total Taxes/Month

This report shows the total taxes collected for a selected year broken down by month. Access this report via the storefront Sales menu: Sales > 03 Reports > Total taxes/month.

Total Cost of Sold Items/Month

This report shows the total cost of sold items for a selected year broken down by month. Access this report via the storefront Sales menu: Sales > 03 Reports > Total cost of sold items/month.

Affiliates Total Sales/Month

This report shows the total sales and commissions of store front affiliates for a selected year broken down by month. Access this report via the storefront Sales menu: Sales > 03 Reports > Affiliates total sales/month.

Visits

This report shows the number page loads and unique visits for a selected date range. The report can

be run per day, month, or year Access this report via the storefront Sales menu: Sales > 03 Reports > Visits.

Cart Abandonment

This report shows products that were added to the shopping cart before leaving the webpage, but were not purchased. The report only shows this information for the current day. Access this report via the storefront Sales menu: Sales > 03 Reports > Cart abandonment.

Rented Products

This report lists any products that have been rented. Access this report via the storefront Sales menu: Sales > 03 Reports > Rented products
