# Participant Tools

Quick Register

If enabled for you system, the quick register field is used to enter an access code that can automatically register or enrol you to specific items.

Compile Course

If enabled for your system, the compile course tool creates a printable, offline version of the course. This compilation will include all text and images but does not compile SCORM packages or tests.

1. Select the name of any course from your home page to see the Utilities menu.
2. Select **Compile Products**.

View Class List

If enabled for your system, you may view a list of other participants enroled in a course that you are taking.

1. Click the name of any course from your home page to see the Utilities menu.

2. Select List.

3. Some configurations may also let you email your classmates.
