

Report Descriptions

The information included here covers the standard reports available via the [report wizard](#) and reporting interface. Information does not reflect reports customized for your system. For example, some reports may have additional fields or hidden fields. Report names and headers used in the example reports may be different on your system.

Reports are available in multiple download options. Many reports have summarized graphical data and are in a responsive, mobile-friendly format that is WC3 compliant. You must use a modern browser and Internet Explorer version 9 and higher to view report graphs.

Reports have a unique identifier so for easy identification. This is especially important if your organization has renamed any reports.

R101 Participant Record Overview

Run R101 to view a single user's group and product enrolments, access codes, earned certifications, affidavit activity, and supplemental training records. The report below is bisected to display it in its entirety.

The image below shows an example of R101.

Last Name	First Name	Username	E-Mail Address	Date Registered

R103 Grades by Participant DEPRECATED

R103 has been replaced by [R109](#) and is no longer supported. If your system has access to this report, a Site Manager can create a ticket to request R109.

Run R103 to view one individual's grades for all of the products they are enrolled to. In step 3, you can group all published versions of the Prova tests into one result. The report generates a separate

entry box for each product.

The image below shows an example of R103.

R106 User Activity Breakdown

For a given date range, run R106 to view the products a user has accessed and how much time the user has spent in them. The report also offers details on the duration of time the individual spent on the assets within a selected product. This image shows the Summary view. The graph shows the top products visited and the data below shows information for all products visited.

The image below shows an example of R106 run as a summary report with multiple products.

The image below shows an example of R106 showing the detailed view, accessed by selecting Details for a product from the Summary view.

For the selected product, the graph shows the top asset visited and the details below contain information for all assets visited.

R108 Participant Taxonomy Performance

This report does not identify the questions themselves. Questions that are not associated with a taxonomy are not reported.

Run R108 to identify the performance gaps and successes of an individual for specific taxonomy terms used within selected tests. Taxonomy terms are automatically reported based on the tests that you select. There is a separate entry for each test and attempt.

The image below shows an example of R108.

Course IBA v2.0: Practice Exams

Questions Correct	The total number of questions the participant got correct within the taxonomy term.
%	The percentage of correct questions within the taxonomy term.

R109 Individual Progress & Grades

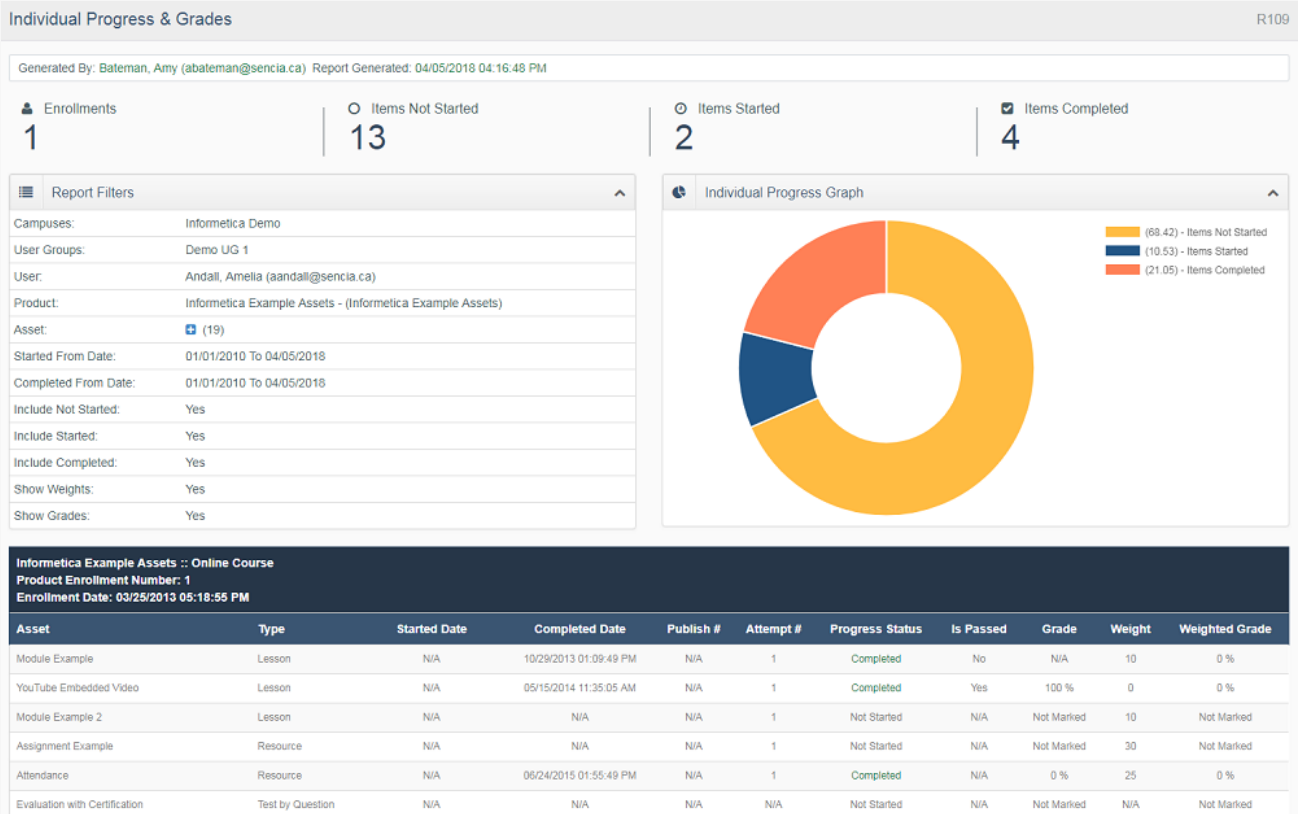

R109 replaces older similar reports R103 and R107. You may also be interested in [R202](#) , a similar report for user groups.

Run R109 to view one individual's grades, progress, and completion status for selected assets within the products selected including the level of completion and grade for each test attempt. This report applies to all assets with gradable or completion capability: appraisals, assignments, evaluations, modules, SCORM, questionnaires, tests (both classic and prova), and custom assets as required by individuals clients).

The report generates a separate table for each product and enrolment showing all attempts (e.g. if the individual attempted a test 5 times in one enrolment, there will be 5 entries for that test. The report output will display all of an individual's enroled products and assets if filters are not selected in step 3.

The image below shows an example of R109 with the option selected to show weights.

If a selected asset does not have any gradable or completion elements, then the report will show:

- Progress Status as Not Started
- Passed as N/A
- Grade as Not Marked

R110 Individual Certification Progress

You may also be interested in R209 , a similar report for groups or R502 , a report

that shows the requirements for selected certifications.

Run R110 to view one user's progress toward any of the certifications they are eligible to earn as well as a summary of the requirements. The report generates a separate table for each certification showing the requirements for each (e.g. required assets, asset types, required grade).

If a selected asset does not have any gradable or completion elements, then the report will show the Required Grade as N/A.

The image below shows an example of R110 where a certification is completed.

The image below shows an example of R110 where a certification has expired. It includes the original date the certification was earned and the date that is expired.

Certification Name: R226 Certification 4						
Progress: Rules Completed: 1 of 1						
Certification Status: Expired on 5/30/2019 2:13:49 PM						
Earned Date: 5/30/2019 2:13:49 PM						
Expiry Date: 5/30/2019 2:13:49 PM						
• Rule Number: 1						
• Minimum Requirement(s) To Earn Rule: 1						
• Rule Status: Completed						
Requirement Number	Product	Asset	Asset Type	Required Grade	SCORM Index Name	Requirement Status
1	R226 Test Product	R226 Test Module 2	Module	Completion	N/A	Completed

The image below shows an example of R110 where certification requirements have been met, but the user does not have the certification applied to their profile. This typically happens if a

certification was created after the requirements were met. The Check Eligible Users tool can be used to apply the certification to the user.

Certification Name: Certificate Test

Progress:
Rules Completed: 1 of 1

Certification Status: Eligible

- Rule Number: 1
- Minimum Requirement(s) To Earn Rule: 1
- Rule Status: **Completed**

Requirement Number	Product	Asset	Asset Type	Required Grade	SCORM Index Name	Requirement Status
1	WHMIS	Module 7: Final Test by Question	Evaluation	80 %	N/A	Completed

The image below shows an example of R110 where a certification has partial completion.

Progress:

Certification Status: Started

- Rule Number: 1
- Minimum Requirement(s) To Earn Rule: 2
- Rule Status: **Not Completed**

Requirement Number	Product	Asset	Asset Type	Required Grade	Scorm Index Name	Requirement Status
1	Building Product	Build Foundation	Prova Evaluation	100 %	N/A	Completed
2	Building Product	Build Mechanics	Prova Evaluation	100 %	N/A	Not Completed

- Rule Number: 2
- Minimum Requirement(s) To Earn Rule: 1
- Rule Status: **Completed**

Requirement Number	Product	Asset	Asset Type	Required Grade	Scorm Index Name	Requirement Status
1	Building Product	Basic Concept	Module	50 %	N/A	Completed
2	Building Product	Build Demo	SCORM	60 %	N/A	Not Completed

R111 Individual Training Path (Formerly Certification Set) Progress

You may also be interested in [R223](#) , a similar report for groups or [R226](#) , that reports individual user completions on each associated certification in the certification set.

Run R111 to view a user's progress toward one or more of the training paths (formerly certification

sets) they are eligible for, as well as a summary of the required certifications and their completion status.

The report generates a separate table for each training path showing the certifications required for each set. The earned date of the training path is the date the individual earned the last certification requirement in the set. The Expiry Date is the earliest date that any one of the required training paths in the set expires.

The image below shows an example of R111 that shows examples of all stages of progress.

R202 Participant and Grade Details by Classification

You may also be interested in [R105](#) a similar report for individuals that shows grades received per attempt.

Run R202 to view a progress summary for the selected SCORM and tests (classic and Prova), including the level of completion and grade for each attempt. There are a number of filters to run this report against, including user type, discipline, and last login date range. You may elect to run the report on a single individual or view only the most recent attempt. In step 3, you can group all published versions of Prova tests into one result.

The image below shows an example of R202.

Campus	User Group	Start Date	End Date	Evaluation	Last Name	First Name	Take	Status	Discipline	Grade
Informetica Demo	Demo UG 1			Avoiding Discrimination	Smith	Kevin		Not Started	General Contractors	
Informetica Demo	Demo UG 1	2/9/2011		Avoiding Discrimination	Doe	Betty	1		General Contractors	100.00%
Demo Campus	Demo Group	3/18/2011		Avoiding Discrimination	Brook	Marisa	1		Cooling	100.00%
Human Resources	ABC Company	3/18/2011		Avoiding Discrimination	Brent	Sebastian	1		Managers	100.00%
Human Resources	ABC Company	12/13/2012		Avoiding Discrimination	Kozlowski	Irene	1		(none)	100.00%

Informetica Demo	Demo UG 1	2/10/2011		Defensive Driving Basics (Part 1)	Doe	Betty	1		General Contractors	100.00%

Select below for more details on how status and grades are displayed in R202.

Field	Description
Filter by Status	Not started, Started, Completed, and All (individuals who have any one of the other statuses). Individuals may appear multiple times with a different status. For example, if the learner named Sara completes a learning item and then starts the item a second time, she will appear under both started and completed.
Grade by Individual Section Configuration	Classic evaluations (not Prova) show the best effort a participant received on an attempt until they earn a better mark. It does not show the specific grade obtained for that attempt. For example, Sara attempted a test 3 times and scored 50, 35, and 100. The report shows two attempts with the highest score of 50 until Sara scored 100 on her third attempt.

Take	Status	Discipline	Grade
1	Failed	(none)	50.00%
2	Failed	(none)	50.00%
3	Passed	(none)	100.00%

R203 Group Questionnaire and Appraisal Scores

Additional reports that contain data on questionnaires: [R102](#) , [R105](#) , [R208](#) , [R219](#) .

Run R203 to view the scores for each questionnaire or appraisal bucket including the section, the number of takes, and the average results of the selected user groups within each question bucket. Select detailed response metrics to see scores and frequency of specific distractors within each question.

The image below shows an example of R203.

R204 Grades by Product

Run R204 to view the grades for selected evaluations (classic and Prova), assignments, modules, and SCORM assets for selected products. The report returns the highest grade obtained by individuals and shows the number of attempts and results by section. Individuals who have not obtained a grade will not be on the report. In step 3, you can group all published versions of Prova tests into one result.

The image below shows an example of R204 reporting on a Prova test that is configured to

give a grade for each section in the test.

Informetica Sample Course - Practice Exam (Prova Test - Marked by Individual Sections)

User Info			Final				Evaluation Sections	
Last Name	First Name	Username	Taken	Completed	Grade	Passed	Section 1	Section 2
Bennet	Maria	mbennet@sencia.ca	1	6/3/2014 10:03:55 AM	86%	Yes	100%	0%
Durane	Nathaniel	NDurane@sencia.ca	2	6/3/2014 10:06:07 AM	86%	Yes	83%	100%
Peares	Emilio	epeares@sencia.ca	1	8/12/2014 9:45:35 AM	0%	No	0%	0%
Saroyan	Camille	csaroyan@sencia.ca	1	6/3/2014 10:15:48 AM	100%	Yes	100%	100%

The image below shows an example of R204 reporting on a SCORM course.

Awareness Quiz (Scorm - Marked by Individual Sections)

Last Name	First Name	Username	Taken	Completed	Grade	Passed
GIOIA	SHARI	[REDACTED]	1	4/4/2014 4:01:38 PM	80	completed
REVER	ALVIN	[REDACTED]	1	3/5/2014 1:20:25 PM	87	completed
SPRACK	KEVIN	[REDACTED]	1	4/21/2014 11:56:08 AM	100	completed

For evaluations graded by section, the section grade is the first passing grade recorded for that section for any attempt. Evaluations graded by section do not allow individuals to reattempt a section once passed, so subsequent attempts will inherit the section grade from the first attempt that is successfully passed.

R205 Affidavit Compliance Status by Product

You may also be interested in [R104](#) , a similar report for individuals.

Run R205 to view affidavit activity for all individuals within the selected user group for selected assets. Information includes the outcome of the interaction (i.e. an indication if the individual accepted, rejected or viewed the affidavit), a timestamp for each interaction, and if they accepted an earlier version of the affidavit. By default, only the most recent version of an affidavit is shown. You can opt to report on all versions in Step 3 of the [report wizard](#) . An affidavit must be associated with a specific asset rather than the product as a whole.

The image below shows an example of R205.

R208 Level of Completion by Asset

Run R208 to view group completion status for selected tests, modules, questionnaires, appraisals, SCORM assets, and some integrated client proprietary testing systems. Filter by completion status and date range. In step 3, you can group all published versions of Informatica-created tests (Prova) into one result, based on site configuration.

Tests, modules, questionnaires, and appraisals must have completion rules set to ensure they are reported as complete. Completion based on affidavit acceptance is also reported.

The image below shows an example of R208 that reports on two tests with ALL completion

statuses selected.

R219 Questionnaire Response Comparison

Additional reports that contain data on questionnaires: R102 , R105 , R203 , R208 .

Run R219 to view user responses for each question within a defined questionnaire. View question responses, response values, and any comments individuals entered. The response values are also summed and averaged at the bottom of the report. R219 is only available as an Excel download. The image below shows an example of R209. In this example, the first question indicates 3 individuals'

responses, the response values, and any of their comments.

The image below is an example of R219 with comments added by the manual author.

Bennet	Maria	mbennet@sencia.ca	3	10/6/2014 1:38:09 PM	In Progress	In Progress	proctor@sencia.ca

R221 Group Taxonomy Performance

Run R221 to view the performance of taxonomy terms belonging to questions used within one or more Prova tests for selected groups of individuals. R221 identifies performance gaps and successes by presenting the percentage of questions answered correctly within the represented taxonomies. Taxonomy terms are automatically reported based on the selected tests. Individuals and their test attempts are listed separately on the report. Note that the questions themselves are not identified and test questions that are not associated with a specific taxonomy are not on the report. In step 3, you can group all published versions of Prova tests into one result.

The image below is an example of R221.

Classic Evaluation vs Prova Reporting

Report Functionality	Prova	Classic Evaluations
Display Question Distractor Data Filter	Yes	No
Incorrect Question Analytics	Yes	Yes
Correct Question Analytics	Yes	No
Question Text Displayed	Yes, except for queries	Yes
Question Distractor Text Displayed	Yes	Yes

Display Question Distractor Data Filter

When this filter is set to "No", the report will only display question text. When this filter is set to "Yes", you can report on distractor data for the following question types: Multiple Choice, True or False, Multiple Answer, Ranking, and Matching. Note that description answer questions (Fill in the Blank and Essay) are exceptions and therefore are not displayed.

Prova Publishes

Since information is only reported on questions that have been answered by individuals, this may affect the question data you see among multiple Prova publishes. This is due to the dynamic nature of question banks and multiple methods of dynamic test creation.

Question Bank Queries and Pooled Questions

Note that question bank queries and pooled questions may appear under the same question number. This is an expected result due to randomization and test configuration. You will only see the questions that have actually been presented and answered during a test attempt. In the example above, there are 2 questions that are both question 1.

The image below is an example of R301 showing Question Query.

#	Code	Type	Pool	Version	Section	Text	Correct / Incorrect	Avg. Grade

R404 Internal Supplemental Training

Run R404 to view groups of individuals that have internal supplemental training attached to their profiles as well as details about the training that occurred. R404 can report the days until expiry for selected training based on today's date, a filtered amount of days, and an expiry date range you supply. You can filter the results by selecting specific user groups, products, only products or assets with expiry dates and use several date ranges: start date, end date, and expiry date. Download in HTML, Excel, or CSV. The duration is the number of days remaining before the training expires, based on the report run date and expiry date. This report is only relevant to clients using the supplemental training feature.

The image below is an example of R404.

R503 Test Question Details

Run R503 to view an overview of a single evaluation or questionnaire, generating a list of questions and weights for each answer or a single section of questions, generating a list of correct answers.

This report does not provide an answer key for question bank queries.

The image below is an example of R503 reporting an evaluation with feedback for both

correct and incorrect answers.

Question #	Pool #	Question Type	Question Text	Distractors / Answers	Feedback (Incorrect)	Feedback (Correct)
1	1	Multiple Choice	What are the five important elements of defensive driving?	<input checked="" type="checkbox"/> Knowledge, alertness, foresight, judgement, and skill. <input type="checkbox"/> Knowledge, alertness, stopping time, judgement, and reaction time. <input type="checkbox"/> Knowledge, consideration, judgement, reaction time, and skill. <input type="checkbox"/> Knowledge, eye-lead time, judgement, reaction time, and skill.	What are the five important elements of defensive driving?	Great work! Defensive driving consists of these five elements.
2	1	Multiple Choice	What is a typical parking lot hazard?	<input type="checkbox"/> Scraping other parked vehicles while entering a tight parking spot. <input type="checkbox"/> Hitting a moving vehicle while getting out of a parking spot. <input type="checkbox"/> Collisions with pedestrians. <input checked="" type="checkbox"/> All answers are correct.	What is a typical parking lot hazard?	Great work! These are all typical parking lot hazards. When in a parking lot, remember to always back into the parking space.
3	1	Multiple Choice	What should you do if you suddenly go into a skid?	<input type="checkbox"/> Take your foot off the gas. <input type="checkbox"/> Turn your wheels in the same direction the rear of the vehicle is skidding. <input type="checkbox"/> Squeeze the brake. <input checked="" type="checkbox"/> All answers are correct.	What should you do if you suddenly go into a skid?	Great work! If you go into a skid, don't panic and follow each of these steps. Remember, if you have ABS, do not pump the brakes.
4	1	Multiple Choice	What should you do if you find yourself too tired to drive?	<input type="checkbox"/> Open your window to get some fresh air. <input type="checkbox"/> Rest one eye at a time. <input checked="" type="checkbox"/> Stop at the first safe place and take a 30 minute nap. <input type="checkbox"/> Drink an espresso.	What should you do if you find yourself too tired to drive?	Fabulous! Do not drive if you are tired! If possible, sleep for 30 minutes or more and drink some coffee before resuming driving.
5	1	Fill in the Blank	William ____ wrote Romeo and ____	Blank 1: Shakespeare Blank 2: Juliet.	Incorrect.	Correct!

The image below is an example of R503 reporting on a questionnaire with 4 buckets with no

feedback.

Assessing Your Project Management Skills

Section - Section 1

Section Pass Rate: 0%

Section description: Examine the following statements and indicate the degree to which they apply to you. In order to receive the most accurate results, please answer each question as honestly as possible.

Question #	Pool #	Question Type	Question Text	Distractors / Answers	Feedback (Incorrect)	Feedback (Correct)
1	1	Bucketed	I find new ways to solve problems.	0 = Not Developed 3 = Beginner 4 = Capable 5 = Very Capable		
2	1	Bucketed	I know how and where to find information and how to use it	0 = Not Developed 3 = Beginner 4 = Capable 5 = Very Capable		
3	1	Bucketed	I find it easy to see things from someone else's point of view.	0 = Not Developed 3 = Beginner 4 = Capable 5 = Very Capable		
4	1	Bucketed	I am someone who begins a task with little prompting from others.	0 = Not Developed 3 = Beginner 4 = Capable 5 = Very Capable		
5	1	Bucketed	I speak and present clearly and effectively	0 = Not Developed 3 = Beginner 4 = Capable 5 = Very Capable		
6	1	Bucketed	I produce accurate, clear, error-free writing.	0 = Not Developed 3 = Beginner 4 = Capable 5 = Very Capable		
7	1	Bucketed	I know how to assemble, motivate, and empower an effective team.	0 = Not Developed 3 = Beginner 4 = Capable 5 = Very Capable		
8	1	Bucketed	I can identify and use business forms; file and record financial transaction.	0 = Not Developed 3 = Beginner 4 = Capable 5 = Very Capable		
9	1	Bucketed	I set and work toward short-, medium-, and long-term goals.	0 = Not Developed 3 = Beginner 4 = Capable 5 = Very Capable		

R504 Asset Exceptions

Run R504 to view information related to additional time and additional attempt exceptions granted to individuals for selected assets within a single product.

The image below is an example of R504.

R603 System Registrations

Run R603 to view user accounts created within a defined date range based on account creation or last login. If no users or dates are selected, then the report will show individuals within the same user groups that the person running the report belongs to. This report's default display is sorted by the user's last name. Export in HTML, Excel, or CSV format.

[View the video tutorial.](#)
