

Participant Tools

Some or all of these features may not be in use for your system.

Quick Register

If enabled for your system, the quick register field is used to enter an access code that can automatically register or enrol you to specific items.

A screenshot of a 'Quick Register' form. It features a text input field with a small orange cursor on the left, and a 'GO' button to its right. The title 'Quick Register' is displayed in blue text above the input field.

Compile Course

If enabled for your system, the compile course tool creates a printable, offline version of the course. This compilation will include all text and images but does not compile SCORM packages or tests.

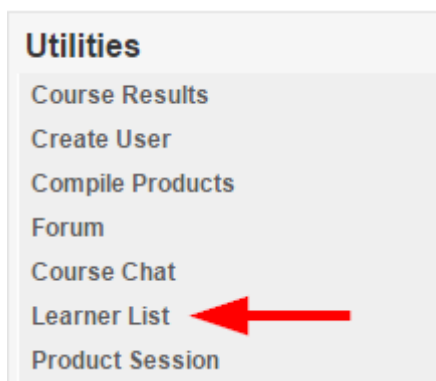

1. Select the name of any course from your home page to see the Utilities menu.
2. Select **Compile Products**.

View Class List

If enabled for your system, you may view a list of other participants enrolled in a course that you are taking.

1. Click the name of any course from your home page to see the Utilities menu.
2. Select List.

3. Some configurations may also let you email your classmates.
