

Manage Storefront Categories

You may find that you wish to add a category or change the name of a category on your storefront. Your storefront items must belong to one or more categories so your customers can easily find what they are looking for.

Category Tips

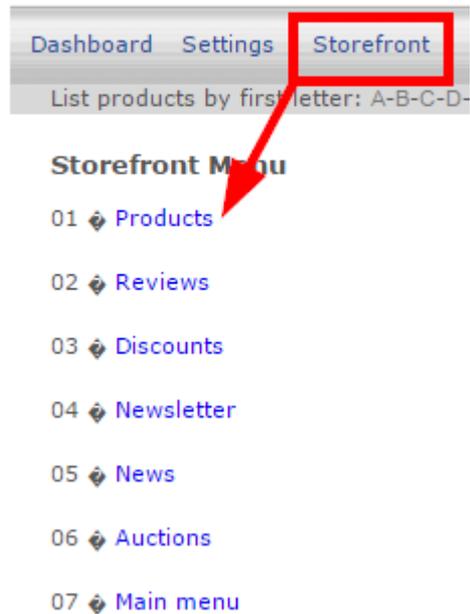

- Categories must be active to be seen on the storefront. Any products within inactive categories will not be seen.
- The storefront will not let you change the name of a category unless there are no products within it. Therefore, you will need to temporarily remove the products within the category or contact a support to change the name for you.

Add a Storefront Category

1. [Access the Storefront](#) .
2. Select **Storefront** from the main menu.
3. Select **01 Products** to open the Product Menu.

Store Administration

You are viewing: Store Administration

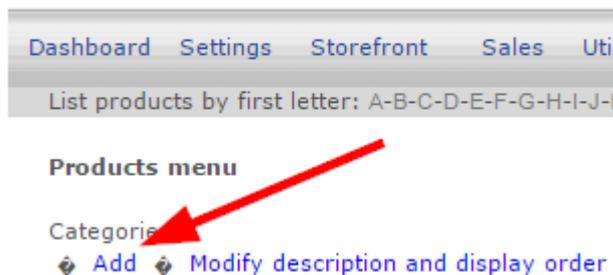

A screenshot of the 'Store Administration' interface. At the top, there is a navigation bar with three tabs: 'Dashboard', 'Settings', and 'Storefront'. The 'Storefront' tab is highlighted with a red rectangular box. Below the navigation bar, there is a text input field with the placeholder text 'List products by first letter: A-B-C-D-'. Underneath this is a section titled 'Storefront Menu' which contains a list of seven items, each with a diamond icon and a number: '01 Products', '02 Reviews', '03 Discounts', '04 Newsletter', '05 News', '06 Auctions', and '07 Main menu'. A red arrow points from the 'Storefront' tab to the 'Products' item in the menu.

4. Select **Add** under Categories to create a new category.

Add Category

Form Fields

Explanation

Description

This is the category name that will be displayed in your store when people browse the store by category, together with the category image.

Parent Category

Select root to create a brand new category.

Select an available category from the drop-down menu to create a subcategory that belongs to the parent category you select.

Details

Add more information not available in the description field. The text you enter here will show as a detailed view when customers click on the category.

Keywords

Add as many simple terms as you like, each separated by a comma, to help customers using the search tool.

Image File Name

Enter the file name for the category's general image. Make sure that the image has been uploaded first.

Add Category

Form Fields

Explanation

Active

Select the checkbox to make this category active and visible on your storefront.

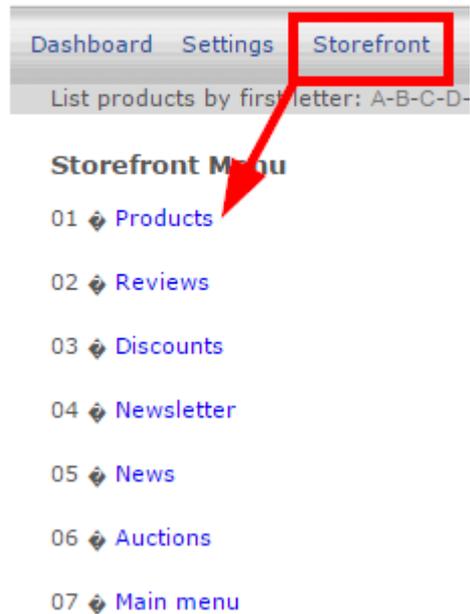

Newly added categories will automatically be populated and available as selections when you post new products to the storefront. The category options are based on the store you select (for clients who have more than one store set up).

Edit a Storefront Category

1. Log into the storefront (see [Access the Storefront](#)).
2. Select **Storefront** from the main menu.
3. Select **01 Products** from the main menu to open the Product Menu.
