View Storefront Items

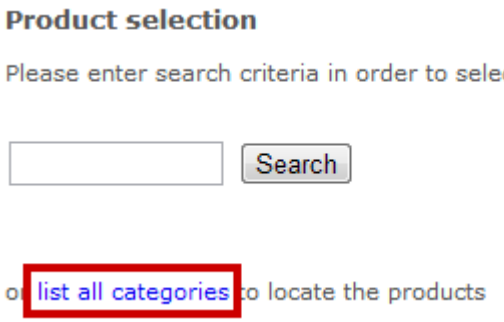

1. Log into the storefront (see Access the Storefront).
2. Select **01 Products** from the main menu to open the Product Menu.

3. Select modify under Products.

4. To view any item added to the storefront, enter a search term, such as the name of the product and then select **Search**. To view an item that is not placed within a category, you need to use the search feature.

5. To view all items within a category select **List all Categories** and then select a category.
