Storefront Discounts

Site Managers can create a variety of discounts including dollar amount, percentage off, and discounts based on a previous purchase. Creating a discount code allows you to implement a variety of scenarios, such as coupons, gift certificates, corporate discounts, etc. The storefront also supports bulk discounts and automatic discounts based on a user's prior purchase. A few of the more popular discount types are discussed in more detail in this manual. You can also visit the Discounts and Promotions chapter of the Comersus manual (select Store Help from the storefront).

- 1. Log into the storefront (see Access the Storefront).
- 2. Select **Storefront** from the main menu.
- 3. Select 03 Discounts.

Active	This check box will make this category active and visible on your storefront.
Discount Parameters	The following parameters limit the applicability of the discount. You do not need to specify any of these parameters; they are optional.
• Quantity	You can limit the validity of the discount to orders that fall within a certain quantity range (e.g. between 5 and 10 copies, etc.)
• Weight	Some clients sell physical products which include a weight. The weight can be used to attach shipping fees to an order on checkout.
• Total Price	Here the parameter is the total order amount. Typically, you would set a minimum dollar amount for the purchase and any order under the minimum dollar amount would not receive the discount.
Discount Code	Enter the code that your customers must use to obtain the discount. The code is entered by customers on the checkout page.
Private	This check box allows admins to set certain discount codes as private within the system. A private code means that it will not appear on credit card order receipts.
