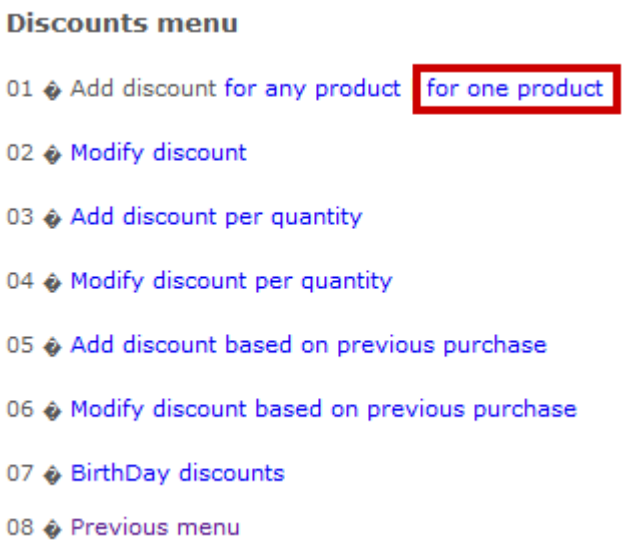
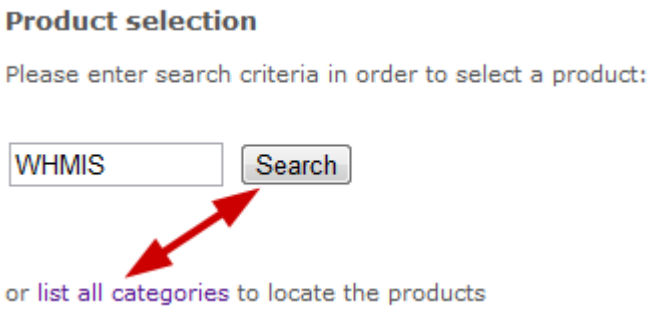
Discount a Specific Item

Create a discount code that can be applied to one specific item in your store.

1. Navigate to Storefront Discounts (see Storefront Discounts).
2. Select **01 Add Discount for One Product** from the Discounts menu.



3. Select the product that you would like to apply quantity the discount to. You can do this by typing the name into **Search** or selecting **List all Categories**.



4. Fill out the **Add Discount** form (see step 5 of Discount Any Item).
5. **Save**.
