

# Restricted Word List

Site Managers can define characters, words, and phrases that cannot be used in passwords.

1. Log in with a Site Manager account.
2. Select **Security** under Control Panel in the main navigation menu.

3. Enter all restrictions into the field. Each entry must be separated by a comma, without spaces. This feature ignores upper and lower case. An entry of 'cat' would not let users create passwords such as 'cat', '123Cat!', 'catalogue\$\$8', 'cattleprod'.

## Restricted Word List

4. **Save.**
