## Session Status Glossary

Session statuses can be used to help filter and organize the sessions. The status list shown below is not exhaustive; more statuses may be available on your system.

- **Planned:** This status indicates the session is still being prepared and it not yet ready for enrolments. It will also disable enrolment from catalog & calendar.
- **Confirmed:** This status indicates the session is ready for enrolment. It is also the only status that allows enrolment from catalog & calendar.
- **Cancelled:** This status indicates a once confirmed session that is no longer available. It will also disable enrolment from catalog & calendar.

- **Completed:** This status indicates the session that has ended. It will also disable enrolment from catalog & calendar.

## Cancel a Session

1. Open the [Scheduling Tool](#) and then select **Edit**.

2. Change the Status to **Cancelled**.

3. **Save**.
4. Optionally [email your class](#) to inform them of the cancellation.
5. To cancel multiple sessions at once, see [Session Statuses](#).

Changing the session to **Cancelled** will remove it from the course calendar and enrolment drop-down menu, but does not remove a user's enrolment to the product.

## Reschedule a Session

1. Navigate to the Scheduling Tool page and then select the session's **Edit** button.

2. Change the **Start Date** and **Time** for your session.
3. **Save**.
4. Remember to update any [file attachments](#), especially an ICS file, if applicable.
5. Optionally [email your class](#) to inform them of the change.
