Home Page Availability

Site Managers can manage home page availability using several methods. Select a method below to learn more.

Add or Remove User Groups

See Add or Remove Home Page User Groups .

Change Status to Active or Inactive

Change the status of home pages. An inactive home page remains in the system but can no

longer be seen by users.

Users are impacted when a home page is made inactive. It is best practise to reassign user groups from an inactive home page.

1. Navigate to Home Pages .

2. Select the page Status to toggle it to active or inactive.
